

Hey ... do you like water?

Vote FOR Proposition 2 to make sure Texas has enough affordable, clean water for our future.

The population of Texas is projected to double over the coming decades, yet our water systems are deteriorating and can't keep up. If we don't do anything, experts agree we won't have enough water to meet our needs.

Proposition 2 will save taxpayer dollars on water projects and allow our water supply to keep pace with demand.
